This class is designed for two types of music students. Those who want to lead people through the music making process and those that are fulfilling a requirement. Whatever the case, the conductor's art encompasses the whole of music learning. The student of conducting must be a good musician trained on one or more instruments or voice. He or she must have a good knowledge of theory and harmony, musical styles, forms, performance practice, and music history. A conductor must know the literature of his or her selected genre and be able to choose from it appropriately for ensembles with different ranges of experience. Conductors must also be able to communicate effectively and have the highest regard for people.

This syllabus is subject to change by the instructor depending on the progress of the class.

Reasonable accommodations for students with disabilities may be arranged by contacting the instructor on an individual basis. This syllabus can be made available in an alternative format upon request.
